Bethel Web3 Platform

Bethel Web3 Platform offers a hack-proof decentralized system using blockchain technology and Zero-Knowledge Proofs (ZKP).

Products Powered By Bethel Web3 Platform

Decentralized Web 3.0 ZKp Storage

Decentralized ZKp POD **Smart Container System**

Decentralized DApps and Al hosting platform with ZKp

WEB2 to WEB3

MATE

Quantum Computing/AI **Security Proofs**

BethelZKPe **Enterprise**

Solutions

Decentralized ZKp Storage

Decentralized Databases and **DApp Containers**

Zero-Knowledge Proofs Integrated

Privacy Preserved

Bethel Use Case

Developer Uses

· zkp dapps

· Al Hosting

Digital Wallets

Immutable NFT Documents

- Storage • Full Storage
 - Identification • Education
- ZKP Storage Layer Database Hosting
 - · Health Data
 - Payments

Government Healthcare

Finance and Banking

Quantum Computer/

Al Security

Artificial Intelligence & Machine learning

Roadmap

2019

- **Foundation** Conceptualization
- · Co-founders form Future CX Pty Ltd
- 2020
 - Formation and
 - **Development** Beta Silver sponsor at the 18th World Launch Blockchain Summit, Virtual
- Team Formation
- Prototype Design and Development
- · White Paper Release
- Prototype Core Development

2022

2021

Maturation

- **Expansion** · Smart Container
- Prototype SDK Development

System

Milestones • Silver sponsor at the 25th

2023

World Blockchain Summit,

- Singapore. • Sponsor at Australian
 - Bethel Testnet Release and Airdrop Launch

Crypto Convention 2023

2024

- Now
- · ZKp Implementation

BECX Token Private Sale

NfT

- Decentralized Web 3.0 ZKp Storage Launch
- Silver Sponsor of the TOKEN2049 2024, Singapore
- BECX Token Initial Exchange Offering (IEO) CoinStore
- Bethel DID Rollout
- **Expansion of Operations Singapore**
- Decentralized ZKp POD (Proof-of-Distribution) seamless Web2.0 to Web3.0 Database Hosting
- Industry 2025 **Penetration** Market

Leadership

2026

- Bethel 2027 **IPO**
